+1 (647)-509-4502 | simulbista@gmail.com | Toronto, ON | **LinkedIn**: simul-bista | **GitHub**: simulbista | **Portfolio**: https://simul-portfolio.vercel.app/

EDUCATION

- **PG Certificate, IT Solutions – Dean's Honors** Jan 2022 - Aug 2023
  Humber College, Toronto ON
  - **Relevant Coursework** - JAVA Programming, DB Programming using JAVA, Data Structures & Design Patterns, J2EE Web & Business Components, Enterprise Application Modeling, Web Programming Framework.
- **Bachelor's Degree in Computer Science & IT** Oct 2011 - Dec 2015
  St. Xavier's College, Nepal

TECHNICAL SKILLS

Languages: JAVA, JavaScript, TypeScript, SQL, HTML, CSS
Tools & Technologies: Spring Boot, J2EE, NodeJS, ExpressJS, ReactJS, AngularJS, REST API, Microservices, AWS, GIT, MongoDB, Shell Scripting

PROFESSIONAL EXPERIENCE

Software Developer Aug 2023
Humber College, Toronto, ON
- Collaborated with 2 developers to design a full-stack web application, "Budget Buddy", providing capabilities for personal expense and income tracking, collaborative group finance management, and user authentication.
- Developed more than **25 REST APIs** that seamlessly interacted with MongoDB, enabling data retrieval, manipulation, and rendering in the **ReactJS**-based front-end.
- Tech stack : **JAVA Spring Boot**, **ReactJS**, **MongoDB**, and more.

Team Lead and Full Stack Developer May 2023 - Aug 2023
Holland Bloorview Kids Rehab – Bloorview Research Institute, Toronto, ON
- Led a team of 3 developers in designing a robust web application utilizing microservices architecture, incorporating features such as surveys, dashboards, and user authentication, enabling accurate measurement of patient progress over time.
- Supervised the team, aligning task delegation with individual strengths to ensure successful weekly iterations and presented outcomes to the product owner, accommodating feedback for continuous improvement.
- Tech stack : **MongoDB**, **ExpressJS**, **ReactJS**, **NodeJS**, and **JWT**

Research Associate Jul 2023 - Present
Sir Sandford Fleming College, Toronto, ON
- Developed a web application using **ReactJS** and **Firebase**, interfacing with **generative AI** model **APIs** to modify images based on user prompts.
- Conducted extensive research on a wide array of innovative tools and technologies, strategically assembling a robust toolkit to bring the proof-of-concept project to life.

Professor – Introduction to Adaptive Web Design Jan 2024 - Present
Faculty of Interactive Media Design, Seneca Polytechnic, Toronto, ON
- Educated first semester students on fundamental web development tools: HTML5, CSS, and JavaScript.
- Guided exploration of accessible web design and optimization techniques for sustainable web experiences.

Professor – Web Application Development Jan 2024 - Present

Faculty of Applied Sciences & Technology, Humber College, Toronto, ON

- Guided second semester students in N-tier enterprise level application development using Spring Boot.
- Demonstrated advanced concepts like RESTful services, Spring JPA and JDBC integration, and Spring Security implementation in real-world web applications.

Innovation and IT *(Promoted **3** times)* Oct 2018 - Jan 2022

World Vision International

Innovation Business Partner, Nepal Innovation Lab

- Led the design and scaling of three impactful digital solutions: a blockchain-based digital transaction platform, an interactive gamified mobile application, and an educational online marketplace.
- Engaged global teams, external partners, and consultants to collectively reach over **150,000** individuals, resulting in disaster risk reduction, enhanced crisis cash programs, and improved community book access.

IT Staff

- Designed, developed, and managed the organization's intranet, fostering a significant uptick in staff engagement and productivity. Metrics demonstrated a marked shift from minimal to regular intranet use, enhancing operational efficiency and team collaboration.
- Provided timely, proactive, and efficient IT services (support, orientation & training) to **300+ staff** improving the rating of the department and the business process.

PROJECTS

- **Pet Management App - PawfectPal**
  - A **JAVA Spring boot** pet management application that allows the user to manage pet information (CRUD operations).
  - **Spring MVC**, **Spring JPA,** Tomcat server, H2 db, Lombok, command line runner, Thymeleaf (form binding, fragments, conditionals), and bootstrap.
- **Restaurant App - Saffron Express**
  - A restaurant web application that performs CRUD operations on different restaurant entities.
  - **Java Spring Boot**, **Spring Data JPA**, REST APIs, Maven, Spring Dev Tools, H2 db, Lombok, Postman, Thymeleaf, Bootstrap
- **E-commerce platform – Petal Express**
  - An e-commerce platform that delivers various flowers, offering authentication, product information, order, and cart management features.
  - Two frontends – one in ReactJS and the other in AngularJS communicating with a single backend in ExpressJS and NodeJS.
  - **ReactJS, AngularJS, NodeJS, ExpressJS, MongoDB, JWT, Vercel**

OTHER INVOLVEMENTS

- Volunteer Tech Lead - Frontend Development at **'The DG Sentinel'** Apr 2023 - Present
- **Humber College**'s Employee Engagement Event Organizer (event portal design) Mar 2023
- Volunteer Computer Lecturer at **St. Paul Edu. Center**, Nepal Jul 2016 – Feb 2020
