# SIMUL BISTA

+1 (647)-509-4502 | simulbista@gmail.com | Toronto, ON

LinkedIn: simul-bista GitHub: simulbista Portfolio: https://simul-portfolio.vercel.app/

## HIGHLIGHTS OF QUALIFICATIONS

- Recent graduate with a distinction of **89.8%** from Humber College's "Information Technology Solutions" program (Aug 2023).
- Bachelor's degree in Computer Science & Information Technology from St. Xavier's College.
- Over two years of experience in designing robust web applications, leveraging JAVA (Spring Boot) and the JavaScript stack (Node, Express, React, and Angular), and proficiency in designing RESTful APIs along with SQL and No-SQL (MongoDB) technologies.
- Leadership skills demonstration through the development of prototype healthcare web applications, featuring a modularized codebase with 15 REST APIs (ExpressJS & NodeJS) that fetch data from MongoDB for display in a ReactJS-based frontend.
- Committed team player with a strong passion for continuous learning, constantly seeking to acquire and implement new tools and technologies.
- Fluent in multiple languages: English, Hindi, and Nepali.

### TECHNICAL SKILLS -

Languages: JAVA, JavaScript, TypeScript, SQL, HTML, CSS

Tools & Frameworks: Spring (Boot, MVC, Data JPA, Security, AOP), J2EE, NodeJS, ExpressJS,

ReactJS, AngularJS, JUnit

Others: REST API, Microservices, Maven, AWS, GIT, JWT, MongoDB, Postman,

Material UI, Tailwind CSS

#### RELEVANT EXPERIENCE —

# Software Developer

Aug 2023

Humber College, Toronto, ON

- Collaborated with 2 developers to design a full-stack web application, "Budget Buddy",
  providing capabilities for personal expense and income tracking, collaborative group finance
  management, and user authentication.
- Developed more than **25 REST APIs** that seamlessly interacted with MongoDB, enabling data retrieval, manipulation, and rendering in the **ReactJS**-based front-end.
- Utilized a tech stack that included JAVA, Spring Boot, Spring Mongo, Spring Security,
   REST APIs, ReactJS, MongoDB, GIT, and Maven as the build tool for the project.

#### Team Lead, Full Stack Developer

May 2023 - Aug 2023

Holland Bloorview Kids Rehab - Bloorview Research Institute, Toronto, ON

 Led a team of 3 developers in designing a robust web application utilizing microservices architecture with MongoDB, ExpressJS, ReactJS, NodeJS, and JWT, incorporating features such as surveys, dashboards, and user authentication, enabling accurate measurement of patient progress over time.

#### Research Associate

July 2023 - Present

Sir Sandford Fleming College, Toronto, ON

Designed a web application using ReactJS and Firebase, interfacing with generative AI
model APIs to modify images based on user prompts.

World Vision International

#### Innovation Business Partner, Nepal Innovation Lab

 Designed and scaled 3 digital solutions – blockchain-based digital transaction platform (reach of 100,000 plus people), interactive gamified mobile application, and educational online marketplace (reach of 50,000 plus children) by liaising with global teams, external partners, and consultants that resulted in disaster risk reduction, enhanced cash programs during disasters and improved book access to the community.

### Technical Support Assistant, Nepal Innovation Lab

• Supported to maintain and scale the digital solutions of the lab that supported the most vulnerable communities in areas like education, disaster recovery, health and many more.

### IT (Assistant, Support & Trainee)

- Designed, developed, and managed the organization's intranet that led to a substantial increase (100%) in staff engagement and productivity.
- Accomplished data-driven decision-making for the organization's business processes by designing and developing 4 PowerBI dashboards.
- Provided timely, proactive, and efficient IT services (support, orientation & training) to about 300+ staff improving the rating of the department and the business process in general.

#### **EDUCATION** -

PG Certificate, IT Solutions - Dean's Honors (89.8%)
 Humber College, Toronto ON

Jan 2022 - Aug 2023

- Relevant Coursework JAVA Programming, DB Programming using JAVA, Data Structures & Design Patterns,
   J2EE Web Components, J2EE Business Components, Enterprise Application Modeling, Web Programming Framework
- Bachelor's Degree in Computer Science & IT

Oct 2011 - Dec 2015

St. Xavier's College, Nepal

#### OTHER INVOLVEMENTS —

Volunteer Frontend Developer at 'The DG Sentinel'

Apr 2023 - Present

- Humber College's Employee Engagement Event Organizer (event portal design)
   Mar 2023
- Volunteer Computer Lecturer at St. Paul Edu. Center, Nepal

July 2016 - Feb 2020

#### PROJECTS -

(More projects can be accessed at https://simul-portfolio.vercel.app/)

- Pet Management App <u>PawfectPal</u>
  - A JAVA Spring boot pet management application that allows the user to manage pet information (CRUD operations).
  - Spring MVC, Tomcat server, H2 db., Spring JPA, Lombok, command line runner, Thymeleaf (form binding, fragments, conditionals), and bootstrap.
- Restaurant App <u>Saffron Express</u>
  - A restaurant web application that performs CRUD operations on different restaurant entities.
  - Java Spring Boot, Spring Data JPA, REST APIs, Maven, Spring Dev Tools, H2 inmemory database, Lombok, Postman, Thymeleaf, Bootstrap
- E-commerce platform <u>Petal Express</u>
  - A specialized e-commerce platform delivers various flowers, offering authentication, product information, order, and cart management features.
  - Two frontends one in ReactJS and the other in AngularJS communicating with a single backend in ExpressJS and NodeJS.
  - ReactJS, AngularJS, NodeJS, ExpressJS, MongoDB, JWT, Vercel
